AQUAZUL (PTY) LTD | SOUTH AFRICA

COMPANY OVERVIEW

Clean water. Clear purpose.

Aquazul Purified Water is a South African water purification and bottling company dedicated to providing clean, safe and affordable drinking water. We serve households, retailers, offices, hospitality establishments, schools, distributors and other organisations that value dependable quality and responsive service.

OUR PURPOSE

Make purified water accessible through exceptional quality, reliable service and practical distribution solutions.

OUR APPROACH

Combine proven purification, hygienic bottling, consistent quality control and customer-focused support.

WHO WE SERVE

Households & families	Retailers & wholesalers	Offices & corporate teams
Hotels, restaurants & cafes	Schools, gyms & venues	Distributors & resellers

Aquazul is more than a water supplier. We aim to be a trusted advisor, helping customers make informed choices while delivering the water they need, when they need it.

MISSION & VISION

Built on trust and access.

MISSION

To provide clean, safe, and affordable purified water through exceptional quality, reliable service, and innovative distribution solutions, improving the health and well-being of the communities we serve.

VISION

To become Southern Africa's most trusted purified water brand by delivering exceptional quality, embracing sustainable practices, and making safe drinking water accessible to every home and business.

CORE VALUES

Integrity	Quality	Transparency
Education	Reliability	Sustainability
Community	Innovation	Customer First

Up to 500 bottles per day
Approx. 2,500 per week

5L
Up to 100 bottles per day
Approx. 500 per week

OUR PROCESS

Purified with care.

01

Pre-filtration

Removes larger particles before finer treatment.

02

Carbon filtration

Reduces unwanted tastes, odours and selected impurities.

03

Reverse osmosis

Uses membrane filtration to produce consistently purified water.

04

Quality control

The finished water is inspected before release.

05

Hygienic bottling

Clean handling, filling, sealing and preparation for supply.

Our process is designed around consistency, hygiene and dependable quality from incoming water to the sealed product.

WHY AQUAZUL

A dependable supply partner.

Consistent quality

A repeatable purification and quality-control process.

Competitive value

Affordable solutions designed for everyday demand.

Reliable supply

Responsive planning for regular and volume requirements.

Scalable production

Capacity that supports customers as their needs grow.

Flexible distribution

Direct delivery and partner-led routes to market.

Customer-first service

Clear communication and practical support at every stage.

PARTNERSHIP OPPORTUNITIES

Aquazul welcomes retail partnerships, wholesale supply agreements, distributor opportunities, hospitality supply relationships and corporate contracts. Our focus is long-term collaboration supported by reliable supply and professional service.
